Available to relocate to Dubai, UAE | Open to Visa Sponsorship | Willing to undertake iPGCE/TLS upon appointment

PROFESSIONAL SUMMARY

Recent M.Sc. Computer Science (Data Science) graduate (86.51% aggregate, completed April 2026) with strong subject expertise across Computer Science, Data Science, Statistics, and Python programming. An enthusiastic early career educator with a genuine passion for making technical concepts accessible and engaging for students. Experienced in academic peer facilitation, project-based mentoring, and educational programme coordination. Comfortable with hands-on, inquiry-led teaching approaches and committed to continuous professional development. Seeking an Early Career Teacher (ECT) or ICT/Computer Science teaching position in a Dubai International School for the 2026–2027 academic year.

CORE TEACHING COMPETENCIES

- Computer Science, Data Science Subject Knowledge
- Programming Instruction — Python, SQL, Computational Thinking
- Student Assessment, Feedback & Progress Monitoring
- Classroom Communication & Student-Centred Approaches
- Academic Research, Documentation & Professional Writing
- Cross-Cultural Communication & Inclusive Learning Environments
- Multilingual — English (Fluent), Malayalam, Kannada, Hindi, Tamil
- Digital Literacy

SUBJECT KNOWLEDGE

Computer Science & ICT: Computational Thinking, Programming Logic, Relational Databases, Data Structures, Digital Literacy, Software Development Concepts

Data Science & Statistics: Exploratory Data Analysis, Statistical Analysis, Machine Learning Fundamentals, Data Visualisation, Explainable AI, Feature Engineering

Programming Languages & Tools: Python (Pandas, NumPy, Scikit-learn, Matplotlib), SQL, MySQL, Jupyter Notebook.

Business & Reporting Tools: Microsoft Excel (Advanced), Power BI, DAX, Power Query, Tableau.

TEACHING & EDUCATIONAL EXPERIENCE

Academic Peer Mentor & Study Facilitator | Mount Carmel College, Bengaluru | M.Sc. 2024– May 2026

- Facilitated peer study sessions for M.Sc. Data Science students, explaining Python programming, SQL querying, statistical methods, and data visualisation to peers at varying skill levels.
- Broke down complex topics — machine learning models, database normalisation, exploratory data analysis — into structured, step-by-step explanations tailored to different learning needs.
- Received consistent positive feedback for clarity of explanation and patience in addressing academic difficulties.

Program Coordinator, MCCIE School Outreach Initiative | Mount Carmel Centre for Innovation & Entrepreneurship

- Coordinated MCCIE's first school outreach initiative — direct exposure to educational programme planning, student engagement strategies, and institutional coordination in a school context.
- Collaborated with faculty and school administrators on programme delivery, event facilitation, and participant coordination, developing communication and organisational skills applicable to classroom environments.

Department Documentation & Reporting Coordinator | Mount Carmel College, Bengaluru | M.Sc.

- Prepared structured professional reports for academic sessions and departmental events, developing strong written communication and the ability to present information clearly for diverse audiences.
- Coordinated with faculty on academic documentation and institutional records, reinforcing formal communication, time management, and organisational skills.

ACADEMIC PROJECTS — DEMONSTRATING SUBJECT DEPTH

Early Detection of Heart Disease Using Explainable AI | Academic Research Project

- Built and evaluated predictive models (Logistic Regression, Random Forest, XGBoost) and applied SHAP explainability techniques, demonstrates A-Level and university-level CS/Data Science subject depth.
- Translated complex model outputs into clear, accessible explanations, directly mirrors the skill of communicating technical content to non-specialist learners and assessment panels.

UAE Real Estate Market Analysis Dashboard | Microsoft Excel

- Designed a structured, layered Excel workbook (120 transactions, SUMIF/COUNTIF/AVERAGEIF, KPI summaries, What-If calculator) in a UAE market context.

Supply Chain Analytics Dashboard & SQL Analysis | Power BI & MySQL

- Built multi-page Power BI dashboards and documented SQL analysis across 100+ products — demonstrates ability to teach BI tools, data querying, and KPI reporting using real-world business scenarios.

EDUCATION

M.Sc. Computer Science (Data Science) | Mount Carmel College, Autonomous | 2024 – May 2026

Completed May 2026 | Aggregate: 86.51% | Strong focus on Data Science, Machine Learning, Statistics.

B.Sc. Computer Science & Statistics | Mount Carmel College, Autonomous | 2021 – 2024

Strong foundation in Computer Science, Statistical Methods, and Mathematics.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- AWS Cloud Practitioner Essentials — AWS Training & Certification (Oct 2025)
- Microsoft Power BI Desktop for Business Intelligence — Udemy / Maven Analytics (Jan 2026)
- Complete Data Analyst Bootcamp From Basics to Advanced – Udemy / KRISHAI Technologies Private Limited
- Introduction to Data Science Job Simulation — Commonwealth Bank (Forage)

LANGUAGES

English (Fluent) | Malayalam (Fluent) | Kannada (Fluent) | Hindi (Intermediate) | Tamil (Conversational)
